KOREA ADVANCED INSTITUTE OF SCIENCE AND TECHNOLOGY (KAIST), 2015;
KOREA ADVANCED INSTITUTE OF SCIENCE AND TECHNOLOGY (KAIST), 2017;
Civil and Environmental Engineering, Business and Technology Management, B.S;
Civil and Environmental Engineering, M.S;
Seoul, Republic of Korea

Yongtak Kim was born and raised in Republic of Korea, before becoming a PhD student and a researcher at the Technische Universität Dresden (TUD) and Fraunhofer IKTS, Dresden, Germany. He received his B.S and M.S of Civil and Environmental Engineering from KAIST in 2015 and 2017 respectively. He has particular interests in Nondestructive testing (NDT) and Structural health monitoring (SHM) fields especially with guided ultrasonic waves. In his free time, Yongtak spends his time in climbing gyms or watching soccer games.
